

INNOVATING REPAIR SOLUTIONS

P190-8003 EXPRESS PLUS ENERGY CLEARCOAT

**TRANSFORMING
THE PROCESS SPEED**

NEXA AUTOCOLOR®

P190-8003 EXPRESS PLUS ENERGY CLEARCOAT

Experience the next generation of refinishing technology. The new Express Plus Energy Clearcoat from NEXA AUTOCOLOR® delivers breakthrough speed and stunning surface perfection, engineered to accelerate repairs and elevate finish quality.

With an industry-first 5-minute drying option at 50 °C and cutting-edge flow technology, it unlocks a faster, smarter and more precise workflow—enabling brilliant results with less effort and minimal downtime in every repair.

60%*
Energy savings
in air-dry mode.

FEATURES	BENEFITS
Next-generation fast-dry technology	Accelerates repair cycles and increases throughput with minimal downtime
Superior flow and advanced surface levelling	Delivers a premium, high-gloss finish that boosts customer satisfaction
Easy polishing and intuitive application	Reduces labour hours while ensuring consistent, repeatable results
Energy-smart, low-consumption formula	Cuts operating costs and supports a more sustainable refinishing process

**FAST & FLEXIBLE
DRYING.**

*Compared to a clearcoat baked 20 minutes at 60°C.

**Polishable after 45 minutes at 20°C.
